

FLEXIBLE SECURITY ENCLOSURE CONSTRUCTION

MODULEGUARD

BURGLARY-RESISTANT PROTECTION

KEY FEATURES

- ModuleGuard security enclosures are certified Grade II–IV by ECB•S in accordance with the EN 1143-1 certification for burglary resistance.
- The rooms also offer approved protection against certain firearms.
- The security enclosures are constructed using modular, lightweight panels.
- The light weight reduces transportation costs, eases installation and allows for placement higher up in buildings where floor loads are limited.
- The modular construction means assembly, disassembly and expansion of a room are both quick and easy.
- The security enclosures can be built into the existing structure of a building and customised to meet the required dimensions.
- Possible application are: reinforced protection for cash-counting rooms, archives, storerooms (for weapons, pharmaceuticals), ATMs, etc.
- A series of high-security locking options is available.
- The exterior of the enclosure can be painted or finished with decorative panels. Pre-painted or galvanised versions available as an option.
